BUCK 112 RANGER - AUTO REVIEW

This Buck 112 Auto model is built with a 420HC steel blade and an Ebony Wood handle with brass bolsters. The Buck 112 Ranger is a classic iconic American knife that has been given an official automatic upgrade. With the highly popular launch of the 110 Auto, the next logical step was to upgrade the 112. There's no need to worry about third party conversions, this 112 features built-in automatic action straight from Buck's factory. The 112 Automatic is quickly deployed with a simple press of the firing button. Item includes a genuine leather sheath designed to prevent deployment when removing the knife.
