*Swiss army knife* is called with that name by American soldiers after WW II. Then, it becomes an iconic tool since it was firstly produced in the market in 1909. The features of this knife come with so many options or tools. Any outdoor activities for explorer, hunter, survivor or others will be easier if this knife is in the pocket as there are many things this knife can do.

What makes you get impressed about this knife is not only about the number of the blades but also the design.
